# THE PROJECT : DEMAIN'S VOLUNTEERS

## FORMER ARTISTS OF THE FESTIVAL

The highly skilled former artists of the Festival, finding themselves between two contracts, will have the chance to volunteer in one of our social circus school host organisations. Once there, the artists participate in the running of the school by teaching in social outreach programmes and in the master classes.

## HOST SOCIAL CIRCUSES

The social circus host schools will welcome the volunteer artist for a period of one to three months. The schools, based all around the world, work with young children, adolescents and aspiring professional artists, using circus arts to help their personal, social and professional development.

## ONLINE TRAINING AT THE ÉCOLE NATIONALE DE CIRQUE DE MONTRÉAL

Successful candidates will benefit from an online training program of 30 hours. They will learn how to teach their skills and how to approach the specific social and cultural issues present in the community where their chosen school is located. Instructors will run the training program from the École Nationale de Cirque in Montreal (ENC).

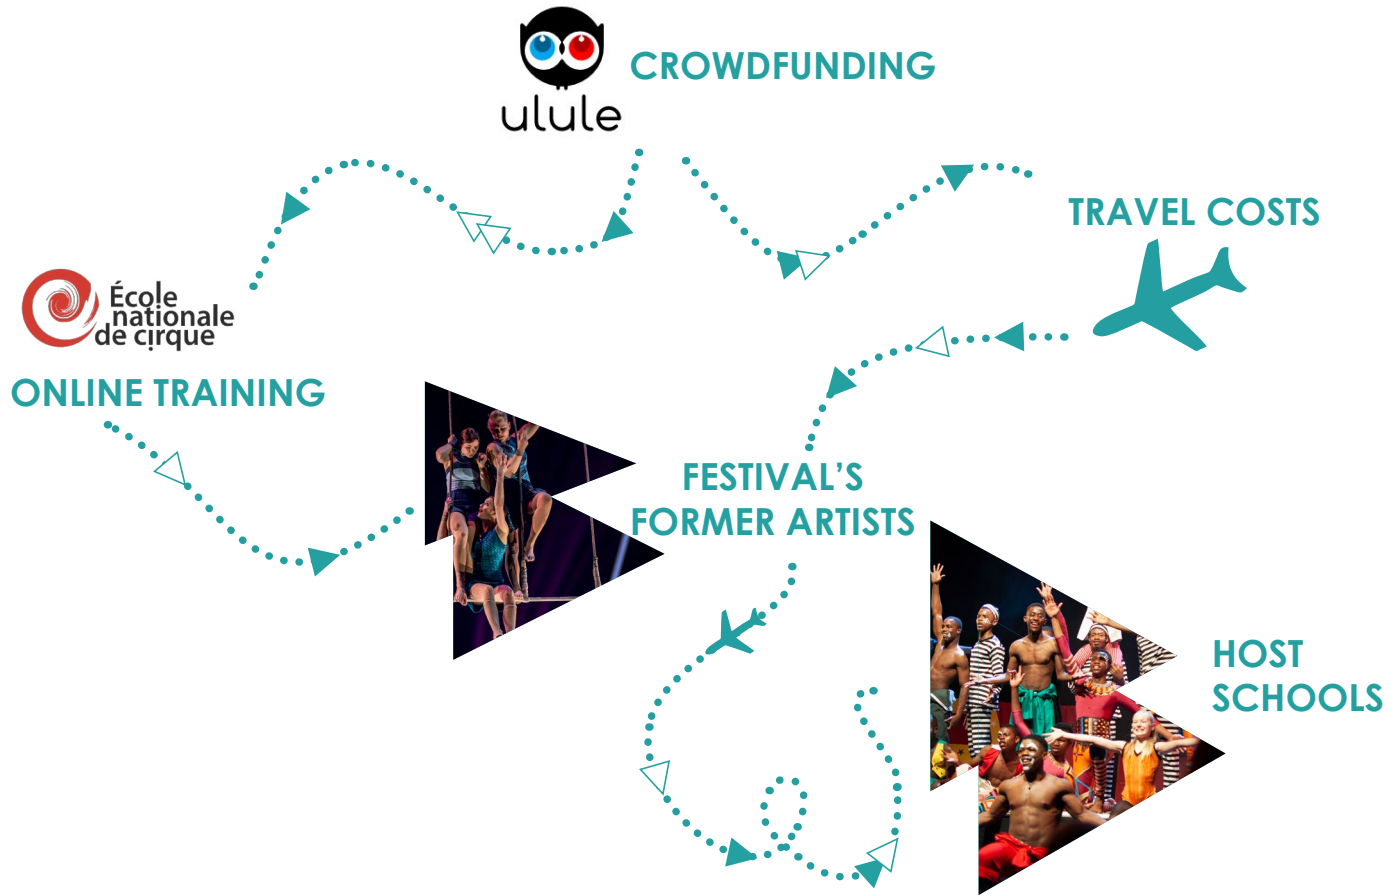

## CROWDFUNDING

To cover the costs of the volunteer's travel and training we launch a crowd funding campaign on Ulule.

## THE WISE FOOLS : THE FIRST THREE ARTISTS VOLUNTEERS

The three trapezists Wise Fools, silver medal winner at the 36<sup>th</sup> Festival, are the first artists who took part in the project. During their month-long placement in October 2018 in Zip Zap, the three artists have been working with both, the Social Outreach classes as well as the Youth Program ones: «Seeing Zip Zap and all its programmes was very inspiring in the sense that we saw how circus can affect the lives of children and young people who don't always come from easy circumstances». The Zip Zap's training program has really changed the lives of young people who came from socially disadvantage background.

## ZIP ZAP CIRCUS - CAPE TOWN – SOUTH AFRICA : THE FIRST HOST SCHOOL

Zip Zap Circus School use the medium of circus arts to provide life skills and development opportunities to youth. Zip Zap runs numerous youth and social outreach programmes, in collaboration with humanitarian organizations (among others, Children's Village et Médecins sans Frontières). Their aim is «inspiring kids for life».

The new crowdfunding campaign is online.
